

Pokémon

"Pokémon" (ポケモン), adapted from the Pokémon series of games. It is a long-form TV animation series of the same name directed by Kunihiko Yuyama, screenwriters such as Hideki Sonoda and Shikichi Ohashi, voiced by Rika Matsumoto and Ikue Otani. The Japanese version of the animation can be divided into seven parts in chronological order according to the original game version: "Pokémon", "Pokémon: Super Generation", "Pokémon: Diamond and Pearl", "Pokémon: Super Wish", "Pokémon XY", "Pokémon: Sun & Moon" and "Pokémon: Journey". In addition to the TV animation series, the Pokémon series also includes some side works: weekly Pokémon Radio, Pokémon Sunday, Pokémon Smash!, etc. that describe the stories of characters who are not the protagonist. Starting from August 1, 2019, The Pokémon Company (Headquarters: Roppongi, Minato-ku, Tokyo; President and Representative Director: Tsunekazu Ishihara) will gradually change the name of "Pokémon" to "Pokémon". At the same time, the logo design of "Pokémon" was also produced and released.

Pokémon

Introduction to Pokémon Super SR Skills:

1. Cut off

The skill of the beast Palkya, Palkya is one of the three beasts created by Arceus. Needless to say, his strength is to maintain the stability of the space in the world of Pokémon, as an ancestor of the space. Divine beast, Palkya has a unique ability to cut through the air, and the damage is outrageous. The reason why the divine beast is called the divine beast is that in addition to the individual rarity, there is also the rarity of the skill.

2. Time roar

Di Ya Luka's skills, Di Ya Luka is a beast created with Paluchya. It is responsible for managing time. It can accelerate or even rewind time, and fight with Paluchya almost before meeting, but since it's time management The beast, since it has a unique skill, Time Roar, with a power of 200, it is also one of the most powerful tricks.

3. Shadow Strike

The unique tricks of the Pluto Dragon. The Pluto Dragon is also a beast created by Arceus. Each of the beasts created by Arcus has its own skills, which also reflects the ability of Arceus. However, Pluto Dragon was expelled because of his tyrannical character, and now lives in a reversal world. The shadow sneak attack will make the Pluto dragon disappear in the first round and hit the opponent directly in the second round, with a power of 190.

4. Holy Fire

The unique skill of the Phoenix King, the Phoenix King is a first-class beast. Although it is not as powerful as the first three in the setting, it is also known as the guardian of the sky in the Pokémon world. In addition to the sky, King Feng is also responsible for life, so the overall strength of King Feng is very high. Sacred Fire works on the Phoenix King's exclusive skills, with a power of 180, and at the same time half of them may burn opponents.

PLAY TO EARN:

NFTs represent ownership and uniqueness. This is where we want to promote this technology, creating a world in which players control a market full of opportunities. Pets are exclusive and limited series of NFTs that will be injected into the game.

MARKETPLACE:

Where players buy and sell items, these marketplaces are an essential component of the Pokémon economy. Players can list items for sale, place orders for items they are looking to buy, or buy any item listed for sale.

GAMEPLAY:

PVE explores the vast world of Pokémon and multiple biomes, and uses 493 pet specialties to create and customize your own games to suit your game style.

PETS:

Pets are the perfect player companion and will be a key part of Pokémon providing great benefits in and out of dungeons. Pets can also be trained to fight in exciting PVP battles.

PVP:

Conquer the arena in explosive battles with a real-time non-targeting combat system. Choose your pet and go with friends into combat.
